

Federal Crop Insurance Corporation, USDA

§ 457.104

count in determining any final indemnity on the unit and will be used to settle your claim as described in the provisions of section 11. (Settlement of Claim) of the Small Grains Crop Insurance Provisions (§ 457.101). You may use such acreage for any purpose, including planting and separately insuring any other crop. If you elect to utilize such acreage for the production of spring wheat, you must:

(1) Plant the spring wheat in a manner which results in a clear and discernable break in the planting pattern at the boundary between it and any remaining winter wheat; and

(2) Store or market the production from such acreage in a manner which permits us to verify the amount of spring wheat production separately from any winter wheat production.

In the event you are unable to provide records of production that are acceptable to us, the spring wheat acreage will be considered to be a part of the original winter wheat unit. If you elected to insure the spring wheat acreage as a separate optional unit, any premium amount for such acreage will be considered earned and payable to us.

[59 FR 9397, Feb. 28, 1994, as amended at 68 FR 34272, June 9, 2003]]

§ 457.103 [Reserved]

§ 457.104 Cotton crop insurance provisions.

The cotton crop insurance provisions for the 2011 and succeeding crop years are as follows:

UNITED STATES DEPARTMENT OF AGRICULTURE

Federal Crop Insurance Corporation

Cotton Crop Provisions

1. Definitions

Cotton. Varieties identified as American Upland Cotton.

Growth area. A geographic area designated by the Secretary of Agriculture for the purpose of reporting cotton prices.

Harvest. The removal of the seed cotton from the open cotton boll, or the severance of the open cotton boll from the stalk by either manual or mechanical means.

Mature cotton. Cotton that can be harvested either manually or mechanically.

Planted acreage. In addition to the definition contained in the Basic Provisions, cotton must be planted in rows, unless otherwise provided by the Special Provisions, actuarial documents, or by written agreement. The yield conversion factor normally applied to non-irrigated skip-row cotton acreage will not be used if the land between the rows of cotton is planted to any other spring planted crop.

Production guarantee (per acre). In lieu of the definition contained in the Basic Provisions, the number of pounds determined by multiplying the approved yield per acre by any applicable yield conversion factor for non-irrigated skip-row planting patterns, and multiplying the result by the coverage level percentage you elect.

Skip-row. A planting pattern that:

(1) Consists of alternating rows of cotton and fallow land or land planted to another crop the previous fall; and

(2) Qualifies as a skip-row planting pattern as defined by the Farm Service Agency (FSA) or a successor agency.

2. Insurance Guarantees, Coverage Levels, and Prices for Determining Indemnities

In addition to the requirements of section 3 of the Basic Provisions, you must elect to insure your cotton with either revenue protection or yield protection by the sales closing date.

3. Contract Changes

In accordance with section 4 of the Basic Provisions, the contract change date is November 30 preceding the cancellation date.

4. Cancellation and Termination Dates

In accordance with section 2 of the Basic Provisions, the cancellation and termination dates are:

State and county	Cancellation and termination dates
